

OKAPED Referral Form in the Med Access EMR

Loading the Referral

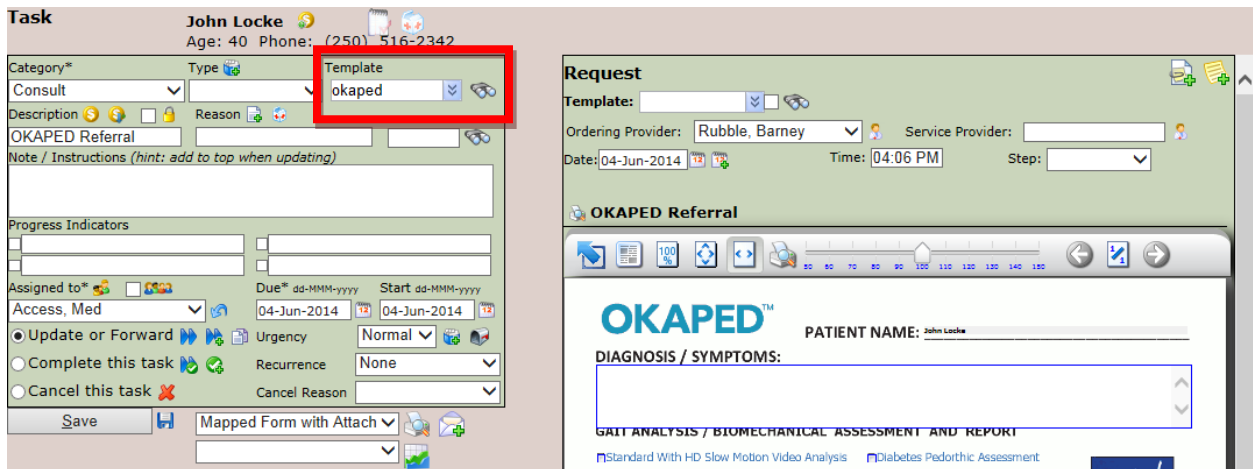

Navigate to the **Consults** tab of a patient's chart and click on the link to create a new **Request**:

In the popup Task window that appears, the OKAPED Referral can be loaded from the **Template** field on the **left-hand side**:

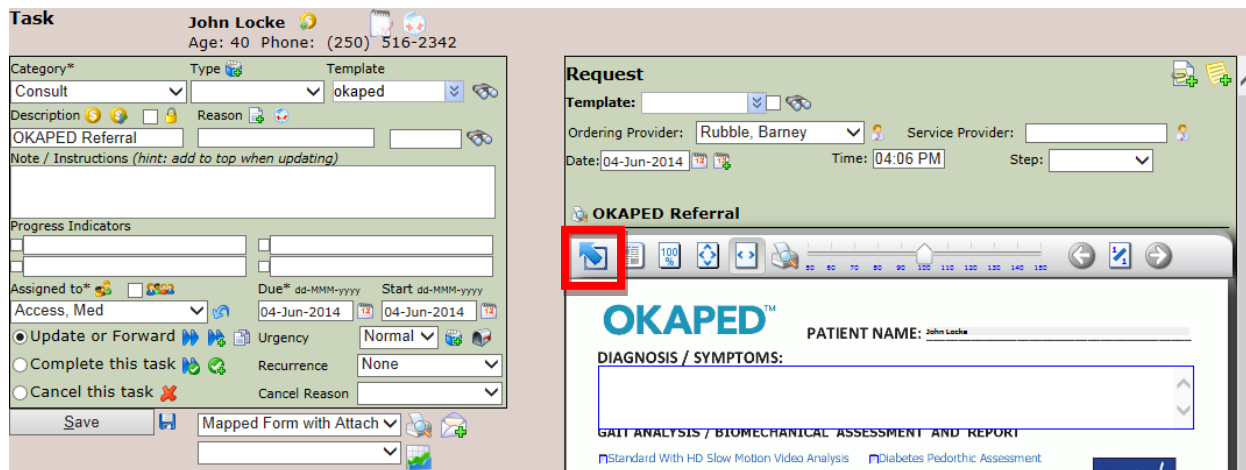

This can be done by searching for the form template's name ***OKAPED** or any *part* of the name. For example, just by typing 'okaped' and hitting enter or clicking the binoculars to search:

Filling Out the Referral

Once loaded, click the **blue arrow icon** to expand the form on screen:

The patient and physician names will automatically fill-in based on the information recorded in the EMR. Scroll down through the form to write in a diagnosis or symptoms and tick off the desired checkboxes:
